ANOTHER HORROR.- From the Dubuque Times. ]-One paragraph in our telegraph columns, Saturday morning, told of a great conflagration then in progress at Amboy, in which was involved a loss of \$200,000. The same dispatch announced that a farmer named Shannon, who had been committed for contempt of court, had perished in the flames. We read this report with a momentary chill of horror, that the pitiless flames should have overleaped the walls of the prison so quickly that the res-

cue of the poor man was impossible. There was nothing in the first telegraphic dispatch to inform us that any one in particular was responsible for this horrible casualty; and yet such was the case, as we learn from an eyewitness of the shocking affair. Our reporter's account of his death by fire, and the attending circumstances, are, in brief, as follows:

"Mr. Shannon, the farmer, had a merciless creditor whom he had owed a debt of \$360. Either before legal proceedings were had, or after Mr. Shannon had been brought before court, he paid his creditor \$300, all the cash he could raise, and he offered to give good security for the remaining \$60, but this offer was refused, and Shaunon became somwhat angry over the matter, and talked for a few minutes as most men do talk when their mad is up .--For this the judge ordered his commitment for contempt of court, and the constable confined him in jail for the night. A few hours after the prison doors were locked on Shannon, the tire broke out. Of the origin or exact locality of the fire our reporter has not learned, but it is known that the imprisoned man cried loudly to be released from his daugerous coninement; and that his cries were heard by people who added their demands to his request that the constable unlock the door and release Shannon, but that dignitary with a callousness which is unaccountable refused to let the man out. To all the earnest entreaties of poor Shannon, and the requests of bystanders, the constable replied 'There's time enough yet,' and he made no attempt to unlock the prison door till the flames had reached the prisoner and escape was impossible, and so, uttering the escape was impossible, and so, uttering the most heart-rending shrieks, poor Shannon died a horrible death by fire-the victim of oppressive cupidity on one side, and criminal stupidity on the other. His responsible executioner, the heartless constable, as soon as he was aware of the horrible fate which had overtaken Shannon, mounted a horse and rode rapidly away, and has not been seen since.

A VOICE FROM THE ORGAN-GRINDENS.— The Italians of New York have called a meeting to suppress the organ-grinders. The organgrinders have held an opposition meeting, at

make liv; he no tief, no rob; he play harp, play organ—what you like. He work for his liv, just like Irishman carry hod. German sell lager beer, makes shoe, jacket, anything

what you like.' Several prominent music teachers took part in the meeting, and protested against any interference with the organ-grinder or his mon-

key. Signor Di Carmo said : "He of all men had a direct interest in keeping his countrymen off the streets, but what should they do? He would not have them beg or steal or starve, and until something was provided for them he should maintain their right to grind the organ or play the harp or do anything else that was honest to gain a livelihood for themselves and families, if they had any. He hoped the meeting which had been postponed would be held, and that from it something the poisonous articles claim to do, should have practical would result; that some such bureau or agency for Italians would be established, and he was confident that if other employment was offered to his countrymen they would many of them be too glad to leave the street playing

AN ENGLISH TRADE UNION IN COURT. - An important suit as to the legal rights of combinations of workingmen has just been tried in England before Justice Hannen, at Leeds. It appears that a number of workmen in an extensive glass bottle manufactory-all members of the Glass Bottle Makers of Yorkshire United Trade Protection Society-proceeded in a body to the owners of the works and demanded the dismissal of the foreman. The partner who received the visit of this deputation testified that he complied with their request, not that he had the least fault to find with the foreman, but because otherwise all the other employees would have left, greatly to the detriment of the business. The foreman therefore began a suit for damages, and after hearing the evidence and arguments, Justice Hannen charged the jury saying. 'If the injury was sustained by untrue representations, it was obvious there was a wrong for which the defendants were answerable. If men combined to gether not for the purpose of injuring another, but for the protection only of their legitimate interests they would not be liable. A verdict was rendered for the plaintiff, awarding him three hundred pounds damages.

MISCELLANY .- In the last number of the Golden Age Mrs. Cady Stanton administers "A Few Gentle Taps at Mr. Greeley,' Not long since she punished Horace in the following story, told at his expense: "She was speaking, once on a time, in favor of her usual cause, and was rather crowding up her arguments against her opponents, when Horace popped up from the midst of the audience. with the pointed remark, 'If you women vote, you must be willing to fight.' 'Certainly, Mr. Greeley,' promptly retorted the speaker: 'we directly, as you did during the war—

## CRYSTAL DISCOVERY

It affords me much pleasure to bear testimony as to the efficacy of your Crystal Discovery. Some years since, while in India, I suffered from which one of their number delivered himself as follows:

"Look here, what can Italianodo? S'pose he come discountry, no speak the lingua; must probe line here that a severe fever peculiar to the country. On my recovering, a patch of hair on the left side of my head became perfectly white, without at all affecting the remainder. To remove this unsightly unsightly the remainder of their number delivered himself as a severe fever peculiar to the country. On my recovering, a patch of hair on the left side of my head became perfectly white, without at all affecting the remainder. To remove this unsightly under the perfect of the country. appearance, I had recourse to various preparations, both in Europe and in this country; but they all had one great defect—they dyed the hair black. Now, with your Crystal Discovery, I can get the desired shade—the natural color of my hair being dark brown. I consider your Discovery the best preparation I know of.

Yours truly, HENRY J. ROGERS. Now as the fact becomes more patent every day that the various dirty and filthy preparations advertised as Renewers, Restoratives, &c., are but compounds of Sugar of Lead and Sulphur, and therefore should be shunned by all who value their health, it is scarcely a matter of surprise that the demand for NATTANS' CRYS TAL DISCOVERY, admitted to be perfectly harmless, and yet accomplish all, and more, than increased so rapidly. It restores the color and growth of the hair positively in a few days; strengthens the roots, makes an excellent dressing, soiling neither clothes nor scalp; but on the contrary it gives the scalp a pure and cleanly his former charges—warranting all work to be look, removing all dandruff and scurf. It is the first class only. Office hours from 8 a. m. to 8 most economical preparation in use. Put up in | p. m. large bottles, at one dollar.

SEWING MACHINES.

HOWE'S IMPROVED

Lock-Stitch Sewing Machines Are world-renowned for durability and sim-

plicity of machinery, the perfection of the tensions, and the unparalleled wide range of work they are capable of performing without change or readjustment.

At the great "Exposition Universelle" in Paris, in 1867, they were awarded the highest prize -a massive Gold Medal-over 82 competitors, and the Grand Cross of the Legion of Honor was conferred on Elias Howe as the original inventor of the Sewing Machine. The growing appreciation of their character-

istic excellence by the intelligent people of this country was clearly shown by the unprecedented sales of the Howe Sewing Machine during the past year, being far in excess of those of any other one patent. More than 1000 of these excellent machines are in daily use in the cities of Washington and

Georgetown, and of this very large number a single case of dissatisfaction cannot be found. They make the "Howe," or "Lock-Stitch," which has the same beautiful appearance on

either side of the fabric sewed, and they are the only machines that make this beautiful stitch to perfection. A branch office has been recently established at No. 105, King street. If you are prejudiced in favor of any particular machine, at least examine the Howe before you purchase. Remember

that Mr. Howe was the original inventor of the Sewing Machine, and gave twenty years of his life to perfecting this machine. Every Howe Machine is warranted for ten years' constant use by the company, and is kept always in perfect order by the local agency.

Purchasers are thoroughly instructed at their residences, by competent instructresses, in every variety of plain and ornamental sewing. An efficient lady operator will be in constant attendance at the office, and machine stitching of every description will be neatly and promptly

THE SINGER STILL TRIUMPHANT. In 1869 we sold 86,781 machines, and last year 127,833, being 44,000 more than any other machine. From this it will be seen that our rivals in trade have been left far behind us, and the

popularity of what is known as our NEW FAMILY MACHINE is steadily and largely increasing. We are not so vain as to suppose that these large sales are due to superior business capacity so much as to the merits of the machine. One hundred and twenty are now in daily use in this city. Machines sold on the most liberal terms. 1 Tucker, 1 Corder, 1 Feller, 1 Hemmer, 1 Braider, 1 dozen Needles, &c., given away with each Machine, without extra charge. C. C. SEASE OF IMPRUDENCE.

Where e misguided and in prudent votary of pleasure ands that he has imbibed the seeds of this pair. It disease, it too often happens that an ill-times ense of shame or dread of discovery deters him from applying to those who, from educa-tion and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from

whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious of injurious compounds, and instead of being re-stored to a renewal of Life, Vigorand Happiness, in despair leave him with ruined Health to sigh over his galling disappointment.
